

Homework Stack List and Queue and Deque List

PLEASE SHOW THE UPDATED LIST AFTER EACH PROBLEM.

1. Update the Stack List with the given commands.
 - a. Add the following Strings to the Stack using an arrayList: "John", "Juan", "Jon", "Jean", "Jonas", "Johnny", "Joao", "Jani", "Giovanni", "Hans" in that order.
 - b. Push "Ivan".
 - c. Push "Jhon".
 - d. Peek the arrayList.
 - e. Pop the arrayList.

2. Update the Queue List with the given commands.
 - a. Add the following Strings to the Single-LinkedList: "John", "Juan", "Jon", "Jean", "Jonas", "Johnny", "Joao", "Jani", "Giovanni", "Hans" in that order.
 - b. Add "Ivan".
 - c. Offer "Jhon".
 - d. Peek the Single-Linked List.
 - e. Poll the Single-LinkedList.

3. Update the Queue List with the given commands.
 - a. Add the following Strings to the arrayList: "John", "Juan", "Jon", "Jean", "Jonas", "Johnny", "Joao", "Jani", "Giovanni", "Hans" in that order.
 - b. Add "Ivan".
 - c. Offer "Jhon".
 - d. Peek the arrayList.
 - e. Poll the arrayList.

4. Update the Deque List with the given commands.
 - a. Add the following Strings to the Double-LinkedList: "John", "Juan", "Jon", "Jean", "Jonas", "Johnny", "Joao", "Jani", "Giovanni", "Hans" in that order.
 - b. addFirst "Ivan".
 - c. addLast "Jhon".
 - d. pollFirst the Double -LinkedList.
 - e. removeLast the Double -LinkedList.

1. A Stack using arraylist

0	1	2	3	4	5	6	7	8	9
John	Juan	Jon	Jean	Jonas	Johnny	Joao	Javi	Giovanni	Hans

B Push() Ivan

↑
Top

0	1	2	3	4	5	6	7	8	9	10
John	Juan	Jon	Jean	Jonas	Johnny	Joao	Javi	Giovanni	Hans	Ivan

← TOP

C Push John

0	1	2	3	4	5	6	7	8	9	10	11
John	Juan	Jon	Jean	Jonas	Johnny	Joao	Javi	Giovanni	Hans	Ivan	John

D Peek()

11
John

↑
Top

E pop()

0	1	2	3	4	5	6	7	8	9	10
John	Juan	Jon	Jean	Jonas	Johnny	Joao	Javi	Giovanni	Hans	Ivan

↑
Top

2.A Queue using single-Linked List

B. Add Ivan

C. Offer Jhon. Return True if Successful

D. Peek() Return element at Front of Queue

John

E. Poll() Remove element at Front of Queue. Return null if empty.

3A. Queue using array/List

0	1	2	3	4	5	6	7	8	9
John	Juan	Jen	Jean	Jonas	Johnny	Jaro	Javi	Giovanni	Hans

↑ Front

↑ Rear

B. Add Ivan

0	1	2	3	4	5	6	7	8	9	10
John	Juan	Jen	Jean	Jonas	Johnny	Jaro	Javi	Giovanni	Hans	Ivan

↑ Front

↑ Rear

C. offer Jhon

0	1	2	3	4	5	6	7	8	9	10	11
John	Juan	Jen	Jean	Jonas	Johnny	Jaro	Javi	Giovanni	Hans	Ivan	Jhon

↑ Front

↑ Rear

D. Peek()

John

E. Poll() Returns Jhon

0	1	2	3	4	5	6	7	8	9	10	11
John	Juan	Jen	Jean	Jonas	Johnny	Jaro	Javi	Giovanni	Hans	Ivan	Jhon

↑ Front

↑ Rear

4.A. Deque using Double-Linked List

B. add first Ivan

C. add Last Jhon

D. PollFirst() Remove first and Return Value

Ivan

E. Remove Last()
